INDEX.

ACCIDENT from electricity, Fatal, 270, 357
Accident from electricity, Another fatal, 427
Adams, W. Grylls, on the alternate current machine as a motor, 454
Adventure, A whale's, 155
Aerial navigation, 221, 446
Aerostats, Note on steerable, by M. Dupuy de Lome, 230
Alkaline liquid, New battery with an, 50
Alternate current machine, The, as a motor, by Prof. W. Grylls Adams, 454
Alternating current machines, 445, 500
„ currents, On the theory of, by H. Wilde, 430
Amalgamation of aluminium and iron, 337
Ambulance experiments at Aldershot, 89
American Bell Telephone Company *v.* People's Telephone Company, 291, 316, 336, 401, 415, 460, 494
„ Institute of Electrical Engineers, 271, 327
„ telegraphs, 237
„ Underground Wire Bill, 74, 316
Anglo-American Brush Electric Light Corporation, 32
„ Telegraph Company, 515
Antwerp International Exhibition, 460
Apparatus for testing lightning conductors, 470
„ „ „ the resistance of lightning rods, by G. R., 168
Application of electricity as a motive power, 416
Art exhibition at Edinburgh, Proposed, 394
Astatic needle galvanometer, by M. E. Ducretet, 347
Atlantic cables, 90
Atmospheric electricity, 227
Aurora, 316

BAILLE, M. J. B., on the measurement of the horizontal component of the terrestrial magnetism by the deflection method, 514
Balloon, A navigable electric, 228
Balloons, Steerable, 233, 272, 417
Bartholdi statue of Liberty, The, 176
Batteries, Converson of liquid into dry, 76
„ Primary, 15, 74
„ Secondary, 515
„ Storage, 215, 438
Battery cells, Secondary, 15
„ Jablochkoff's new, 352
„ Lalande-Chaperon, 73
„ New, with an alkaline liquid, 50
„ „ „ carbon electrodes, by Tommasi and Radiquet, 135
Bauer's patent spanner, 133
Belfast arc lamp, The, 308
„ Electric Appliances Company, 316
Bell-Drawbaugh suit, The, 291, 316, 336, 401, 415, 460, 494, 498
Bellhanging, 197
Belting, Fires from, 523
Beneficent lady scientist, A, 271
Beringer, A., on a comparison of the transmission of force by electricity as compared with the other most common mechanical transmissions, 69
Binko's electric railway, 317
Boring of marine animals in timber, &c., 327
Boston Electrical Exhibition, 270, 374, 500
Brazilian Submarine Telegraph Company's cables, 33
Breaking telegraph insulators, 14
Brighton electric railway, The, 293, 480
British Association—
meeting of the, 55, 75, 113, 133, 155, 161, 175, 216, 271, 356, 394, 500
Analogy between heat and electricity, by G. F. Fitzgerald, 227
Application of electricity to tramways, by M. Holroyd Smith, 205
Clark's standard cells, On, by Lord Rayleigh, 227, 327
Discharge of electrical accumulators, On the, by E. Frankland, 325
Domestic electric lighting, by W. H. Preece, 323
Dust, by O. J. Lodge, 226
Galvanometer with 20 wires, On a, by Lord Rayleigh, 226
Gyrostatic working model of the magnetic compass, On a, by Sir William Thomson, 208
Improvements in coast signals, by Sir James Douglas, 227
Induction Inclinometer, by C. Carpmael, 227, 322
Law regulating the connection between current and intensity of incandescence of carbon filament in glow lamps, by W. H. Preece, 226
Loss of heat by radiation and convection, as affected by the dimensions of the cooling body, by J. T. Bottomley, 262
Magnetic rotation of compounds, by Dr. Perkin, 226
New voltmeter, by Capt. Cardew, 204
Portrush electric Railway, by Anthony Traill, 245, 327
Recent improvement in apparatus and methods for sounding ocean depths, by Rear-Admiral Daniel Ammen, U.S.N., 285
Report on guage for small screws, 223
„ practical standards for electrical measurements, 248
Seat of the E. M. F. in the voltaic cell, by O. J. Lodge, 261, 365, 380, 407
Steps towards a kinetic theory of matter, by Sir William Thomson, 182
Telephoning through a cable, On, by Lord Rayleigh, 226
Use of secondary batteries in telegraphy, by W. H. Preece, 410
Watt and horse-power, The, by W. H. Preece, 225

Brook's system of underground wires, 34
Brown and Saunders's individual telephone call, 125
Brush armature, A new, 460
„ patents, The, in America, 266
Bunsen photometer, A new form of the, by Dr. Hugo Krüss, 361

CABANELLAS, M. G., on the direct measurement of the two static components and of the dynamic component of collector machines, 123
Cabanellas, M. G., on dynamo-electric machines, 492
Cable—
between Australia and America, 237
to the Channel Islands, New, 153
to the Eddystone lighthouse, Proposed, 53
The Forth, 14
The Granton-Burntisland, 14
The Haiphong, 14
The Macao-Hong-Kong, 33
to Mauritius, A, 500
between Nova Scotia and Sable Island, 415
New submarine, 314
Cable—*continued.*
Proposed Atlantic telephone, 314
repairs, 153, 174, 292, 314, 355
The St. Vincent-Pernambuco, 33
scheme in Canada, 334
The Senegal, 234
The Spanish-American, 33
stations in China, 174
steamer, launch of a, 522
submarine, a light, New type of, 29
A submarine telephone, 196, 314
The Tasmanian, 272, 355, 393
A West African, 334

Cables—
Atlantic, 90
The Australian, 334
Bennett-Mackay, The, 73, 113, 132, 153, 175, 196, 215, 234, 256, 270, 315, 334, 355, 393, 415, 437, 499
Breakage of Atlantic, 292
Electric light, 516
Spanish National Submarine, The, 393
Submarine, in war time, 355

Cab service, A telephonic, 176
Canary Islands, Longitude of, 25
Caoutchouc, New source of, 256
Capitalists, Inventors and, 61
Capital punishment by electricity, 374
Carbon under pressure, On the variation of the resistance of, by T. C. Mendenhall, 267
Cardew's system of dynamo winding, 294
Carhart, H. J., on the periodic modification of electrostatic induction, 249
„ „ on the relation between the electromotive force of a Daniell cell and the strength of the zinc sulphate solution, 250
Causes of death by intense electrical action, by C. M. Gariel, 221, 241
„ „ disturbance in telephonic communications, 8
Chandler's patent high-speed expansion engine, 514
Charge against directors, 315, 336
Chassevent, C., on the Trouvé electric universal lamps, 446
Chess by telephone, 269
Chilian telegraphs, 132
City and Guilds of London Institute, 197, 417, 469
City Notes—
Anglo-American Brush Electric Light Corporation, 97, 507, 527
„ „ Telegraph Company, 78, 98, 114, 296
Brazilian Submarine Telegraph Company, 118, 339, 375, 507
British Electric Light Company, 99
„ Insulite Company, 376
„ Spiral Telephone Wire Syndicate, 320
Brush Midland Electric Light and Power Company, 483
Compagnie du Télégraphe sous-marine entre la France et l'Angleterre, 257
Consolidated Telephone Construction and Maintenance Company, 92, 504
Cuba Submarine Telegraph Company, 99, 136
Devon and Cornwall Electric Light and Power Company, 137
Direct Spanish Telegraph Company, 238, 273
„ United States Cable Company, 78, 96, 273, 340

163590

CITY NOTES—*continued.*
Eastern Extension, Australasia and China Telegraph Company, 99, 274, 295, 318, 340, 485
„ and South African Telegraph Company, 18
„ Telegraph Company, 18, 36, 99, 296, 375, 507
